

ABOUT

YINUO LIU

yinuo.liu.work@gmail.com (646) 393-7696 327 E 8th St, NY 10009

Architecture graduate with an interdisciplinary design background and accelerated experience across multiple firms in New York and international contexts. Developed a strong foundation in digital modeling, architectural visualization, and fabrication as tools for research, spatial analysis, and representation. Experienced in contributing to diverse project typologies, including housing and interior interventions, while maintaining a critical interest in how architectural ideas are constructed, communicated, and tested through different media. Proficient in Rhino and AutoCAD, with working knowledge of Revit, and highly motivated to deepen technical and conceptual inquiry through graduate study.

EXPERIENCE

2020 - 2025
NEW YORK NY **BACHELOR OF ARCHITECTURE**
COOPER UNION

- Thesis Project – Living Street

JULY-NOV 2025
NEW YORK NY **DRAFTER / MODEL BUILDER**
Alexander Gorlin Architects

- Collaborated with project architects to refine design proposals for luxury residential and religious projects through schematic and design development phases.
- Prepared and refined technical drawings and presentation diagrams using Rhino, AutoCAD and Adobe Creative Suite.
- Developed 3D models and produced interior and exterior renderings to communicate design intent across conceptual, schematic, and publication stages.
- Produced 3D models and photo-realistic renderings for project representation using Rhino, EnScape and Photoshop.
- Constructed detailed physical models at multiple scales with digital and manual fabrication.

JUN-AUG 2024
NEW YORK NY **INTERN**
BONE / LEVINE ARCHITECTS

- Conducted and documented 4 on-site roof inspections and material performance tests to diagnose leakage issues and inform restoration strategies.
- Produced schematic drawings for public building projects using AutoCAD and Adobe Creative Suite.
- Collaborated with project architects to refine residential architectural details, developing detailed plans and sections for interior finishes.
- Produced 3D models and photo-realistic renderings for project representation using Rhino, EnScape and Photoshop.
- Created and developed 3D models and renderings in Rhino, Enscape, and Photoshop to visualize and support

JUN-AUG 2023
SHENZHEN CHINA **INTERN**
CAPOL HUA YANG INTERNATIONAL & ASSOCIATES

- Developed schematic drawing for 3 multi-story industrial building complexes using AutoCAD, enhancing design clarity for reviews and client presentations.
- Revised architectural drawings in compliance with building regulations, including fire codes, red-line setbacks and green space requirements, ensuring regulatory approval and optimize site usage.

FALL 2023
NEW YORK NY **PROJECT ASSISTANT**
COOPER UNION

- Designed and developed programs that assists architecture students to design in the early phase.
- Built up framework for AI image generating program utilized Stable diffusion collaborated with engineer students.
- Designed and installed physical exhibition setup showcasing the program.

SKILLS

VISUALIZATION

Photoshop
InDesign
Illustrator
Enscape
Blender
Photography

DESIGN

Auto CAD
Rhinceros
Revit
Sketch Up
Grasshopper
